

Our Mission

Sole's mission is to provide a leather-alternative "athleisure" shoe that is completely recyclable from toe to sole. Sole focuses primarily on three main ideals:

- ◇ Sustainability
- ◇ Comfort
- ◇ Style

With these in mind, Sole continues to make monumental advancements in the shoe industry while providing quality products.

Pineapples for a
Purpose

Sustainable,
Comfortable, Stylish, Shoes

About Us

Sole is type of ath-leisure shoe that is made from a “leather alternative” material. This material is manufactured from pineapple leaf fibers. Pineapple leaves are constantly disposed of and is in turn, considered waste. By creating a material of pineapple leaves, one is creating a recyclable shoe.

Paired with recycled plastic for the sole, cotton shoelaces and other sustainable materials, the entire shoe is recyclable. This makes Sole stand out as a sustainable, stylish, and comfortable footwear option.

Find **Sole** in stores or check out our website:
